Instructions:

1. Click on File -> Make a copy

Include your IPO Chart with your code in Eclipse IDE: We will discuss and demonstrate this in the computer lab.

IPO CHART

Program name:	**MetricConversion**	
INPUT	**PROCESS**	**OUTPUT**
Hint: What will the user input?	Hint: What is the program going to do with the input information?	Hint: What will the screen display after user input?
The user enters a number and chooses one of the eight conversion options from the menu.	The program uses a switch statement to select the conversion. It calls the correct method and uses the conversion formula to calculate the answer.	The screen displays the converted measurement with the correct unit. If the user enters an invalid choice, an error message is displayed.
